Thursday 27/5/16

Last Cardio-version

19/05/16 - 8 days ago

**Arrive DAY SURGERY ADMISSIONS
@ 8:20am**

DAY SURGERY WARD @ 8:30am

ASSESSMENT Bay bay 4 @ 9:15am

CARDIOLOGIST: Michael Davis

ANAESTHETIST: Patrick Coleman

DISCHARGED @ 11:15am

We arrived at Day Surgery waiting room, only us & couple at desk 2. Dorothy called us to desk 1, again my file not able to be found as I am an 'add on', walked through to the ward waiting room, only there 5 mins when Sarah, Dr Davis's

secretary rang to see if I was on my way, yes Here, good I can have C-V earlier at 9:30 beauty! Quickly called to Day Surgery Ward. Nurse again went through my details, did obs then anaesthetist, Patrick Coleman came to chat to me. He is very amiable, calm & thorough. Had a wee then Carol (pleasant Eastern Block woman) wheeled my bed through to Assessment BAY 4. I met my nurse, Silvana, able to work under pressure well.

Pat arrived, did my cannula painlessly, Greg left, all the usual prep Dr Davis arrived. I took a bit longer to nod off. Pat said that he would be able to talk to me while under but the drug will make me forget, he would go when I came to. Greg came back, Silvana did a few Obs waiting for my BP to get

over 50/100 before going back to day ward.

Silvana did a hand over to day Surgery RN, Amy & I was wheeled back to Day Surgery ward.

Amy did some Obs, asked if I wanted sandwiches also offering Greg something. I asked for toast & vegemite she obliged & returned with strong coffee, toast & bickies. Greg & me did a fairly lame American crossword on his phone. I removed all my stickies, went to the loo, Amy removed my cannula, I dressed & we left, Amy gave me a brochure & noted when I would see Dr Davis. Discharged 11:15.
